

feminist mapping: past, present, futures

PANEL DISCUSSION

February 26, 2021 @ 1 PM(AZ) / 3 PM(EST) - VIRTUAL

Selene Yang (2020) posted to Twitter: “En una palabra o línea: ¿Qué es mapeo feminista/cartografía feminista? In one word or one line: what is feminist mapping/feminist cartography for you?” This seemingly simple question brought feminist mapmakers from around the world into conversation. Their answers ranged from singular words to multiple sentences. In this panel, we bring together the feminist mapmakers that responded to Yang’s post to better understand the past, present, and futures of feminist mapping.
